Validation of Informal Learning in the Professional Field of Event-Technology

TeBeVAT Process - owned by the candidate

INNOVATION

TeBeVAT offers a tool for the identification, evaluation and documentation of knowledge, skills and competences for lifelong learning in the area of event-technology.

The existing gap in the current European database for occupations and vocational competences (ESCO) has been filled. 285 competences relevant for the work of stage and event-technicians have been identified.

SUSTAINABILITY

Lifelong Learning Documentation Tool

Scale

Self-evaluation based on scoring rubrics and post-hoc skill gap analysis with the help of a mentor.
