# Does validation support mobility?

Effective practices are  
being implemented  
around the world

Inclusive assessment  
practices, national  
policy approaches and  
accessible outreach  
are helping

Successful efforts are  
often standalone and  
in a limited number of  
countries

Much literature  
pertains to the  
European context

# From theory to practice: Zooming in on UIL's RVA capacity-building activities

## Challenges

- Language barriers
- High costs
- Lengthy processes
- Lost/missing documentation
- Missed formal learning

Support for cultural integration

Development of culturally informed assessment materials

Outreach and guidance

## Success Factors

## Culturally informed assessment Inclusive RVA outreach

# Interactive group discussion

## One common challenge

This should be faced by migrants and refugees as they seek to access/engage in validation. The challenge should be faced in each group member's country.

## One key step

This step could be taken to advance RVA for migrants and refugees or support mobility to a greater extent through validation, looking ahead. This way forward should be relevant to each group member's country.

## One burning question

This could be for fellow participants or UIL. It should relate to today's topic.
